-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

1. Claims 57-72 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected method, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 8/29/2006.
2. Applicant's election with traverse of the restriction in the reply filed on 8/29/2006 is acknowledged. The traversal is on the ground(s) that the connections between the parts could generically be considered joints. This is not found persuasive because the method claims do not recite all of the structure (including the joints or connections) of the apparatus claims, and the method could be performed using additional or other steps.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 37, 41, 44 and 45 are rejected under 35 U.S.C. 102(e) as being anticipated by Gregg et al. '599.

Art Unit: 3754

Gregg et al. shows a container apparatus 104A having a container; a recharge container apparatus 104B having a container and discussed in column 8, lines 18-22; gas source discussed in column 13, line 9; purge gas source discussed in column 13, lines 16-40; vacuum apparatus 14 comprising a Venturi; solvent supply discussed in column 8, lines 60-62; vaporizer discussed in column 7, lines 50-53; and the joints or connections are seen in Figures 4A-6M.

Allowable Subject Matter

5. Claims 38-40, 42, 43 and 46-56 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

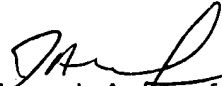

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Xu et al., Laederich et al., Goode, Shannon et al., and Geatz show other fluid dispensing and purging devices.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph A. Kaufman whose telephone number is (571) 272-4928. The examiner can normally be reached on Monday-Thursday, 5:30AM-2PM.
